triniti™
skin series

improve skin clarity, texture and wrinkles on your face without surgery

The triniti skin series combines three of today's most effective technologies to achieve total facial renewal. Save time and get beautiful results with just 3 treatments in 1 session!

Each triniti treatment session includes:

1. Color Correction

treats spider veins, age spots, uneven skin tone and sun-damaged skin.

2. Refirme™ Skin Tightening targets telltale signs of aging, including: jowl and neck laxity, sagginess under the eyes, saggy brow lines, and nasolabial folds.

3. Matrix IR™ Fractional Wrinkle Treatment resolves wrinkles, and skin texture becomes smoother and more elastic.

Give yourself a more youthful appearance!

triniti skin series

Achieve tight and firm skin appearance

Safely treat tiny spider vessels and red and brown spots

Smooth deeper lines around the nose and mouth

How does it work?

The 3 treatment technologies of the triniti skin series – color correction, skin tightening and wrinkle treatment – feature combined bi-polar radio frequency and light energies which precisely heat tissue within the targeted treatment area to stimulate improvement within the skin.

How many office visits are required?

triniti saves time compared to other treatment programs by offering color correction, skin tightening and wrinkle treatment all in a single office visit. Typically 3-5 visits are required to complete the triniti program.

Does it hurt?

Most patients easily undergo the procedure. In addition, topical anesthetic cream and external cooling can be used to

increase your comfort level. Many patients return to normal activities immediately after treatment.

When can I expect to see results?

Most people see a gradual and continual improvement over the course of their treatments. During your initial consultation, your medical practitioner will personalize your treatment schedule for maximum results.

Is it safe?

Treatment is safe and effective for most skin types and skin colors.

How long is the treatment duration?

Total triniti treatment time is 40 – 60 minutes. If the neck is also treated, allow an additional 15 – 30 minutes. Typically three sessions spaced three to four weeks apart are performed. One touch-up session may be needed every six months.
